PROFESSIONAL EXPERIENCE

Software Developer Intern

Sarappy | July 2026 - Oct 2026

- Shipped cross-platform features across 3 production web and mobile apps using React Native, React, and TypeScript, standardizing reusable UI components across codebases.
- Architected backend REST APIs and database queries using PHP/Laravel and MySQL, eliminating data sync bottlenecks between mobile clients and admin portals.

Full Stack Developer Intern

Certicode | Feb 2026– May 2026

- Built responsive web applications and reusable UI components using React, TypeScript, Node.js, and Express.
- Maintained backend RESTful API endpoints and resolved database queries across PHP and MySQL.

PROJECTS

Loopym Mobile App

Tech Stack: React Native, Expo, TypeScript, Expo Router, TanStack Query, Zustand, React Hook Form + Zod, Firebase Maestro, EAS + GitHub Actions

- Rebuilt 20+ screens to modern design specs and integrated native iOS UI/haptics, improving interface responsiveness and boosting in-app user review conversion.
- Shipped 40+ reviewed PRs across 4 core modules, accelerating feature releases.

MyCocolife Admin

Tech Stack: React, TypeScript, Vite, Material UI (MUI X DataGrid), Redux Toolkit, React Query, Formik/Yup, SASS, Vitest, GitHub Actions (AWS EC2)

- Engineered an automated agent payment and client-side PDF export module using MUI X DataGrid, cutting invoice generation turnaround and eliminating manual administrative processing.
- Implemented recurring notification scheduling and role-based approval flows, reducing broadcast setup time and ensuring content compliance.
